Learners may study together but all assignments should be completed independently.

Forgeries Statement:

- Statements made on a learner's performance which are untrue and both the learner and witness have signed to confirm its authenticity

Forgeries invalidate evidence and in the event of receiving forged work the learner will be contacted directly and a decision made either requesting the learner to resubmit evidence for the whole unit to which the evidence applies or removing the learner from the course.

It shall be the duty of all our learners in all their acts and behaviour to observe and maintain honest and peaceable behaviour at all times. All learners are required to observe their workplace's policies and procedures.

Course Requirements

Declaration of Intention:

In order to register with the General Pharmaceutical Council (GPhC) as a pharmacy technician, candidates must meet a number of requirements:

- Completion of an approved competence-based qualification
- Completion of an approved knowledge-based qualification
- 2 years relevant work-based experience working under the supervision, direction or guidance of a pharmacist or pharmacy technician to whom the applicant was directly accountable for a minimum of 14 hours per week (note: this commences from the day the candidate is enrolled onto a relevant training programme)

Completing all the requirements above does not guarantee registration with the GPhC. The pharmacy regulator will undertake further checks on character, health and relevant work experience before registration is granted. As of July 2011 it is an offence for anyone who is not registered with the General Pharmaceutical Council to pretend to be a pharmacy technician.

If you are working for a minimum of 14 hours per week under the supervision, direction or guidance of a pharmacist or pharmacy technician then you will be known as a **pre-registration trainee pharmacy**

technician. You will be subject to the Code of Conduct for pre-registration trainee pharmacy technicians set out by the GPhC and will be eligible to apply for registration as a pharmacy technician on successful completion of all necessary training.

If you will be completing the course without the required supervision, direction or guidance of a pharmacist or pharmacy technician you **will not** be able to refer to yourself as a pre-registration trainee pharmacy technician and will not be able to apply for registration until the necessary work experience has been undertaken. For further guidance on this, please visit our website www.buttercups.co.uk or contact training@buttercups.co.uk.

The study time to complete the course is 720 hours over 2 years for the knowledge based course and approximately 2 hours per week for the competence based course depending on experience. For the knowledge course, you will need access to the following resources as a minimum:

- The BNF
- The Medicines Ethics and Practice Guide
- The Drug Tariff
- Access to the internet (for example, at home or the local library)

12. Learner Declaration (please tick one box only and sign below):

As the trainee I understand that when undertaking this training course with Buttercups Training Ltd:

- As I am working with the required level of pharmacist or pharmacy technician supervision / direction / guidance I can practise as a pre-registration trainee pharmacy technician but my registration with the GPhC will require further checks and is not guaranteed. I am aware I should abide by the Code of Conduct set out by the GPhC and any concerns with regard to my health, conduct or performance will be reported to Buttercups Training Ltd and / or the GPhC. This could result in my course being terminated or my registration being refused.
- I do not have the required level of pharmacist or pharmacy technician supervision / direction / guidance so will not be eligible to register as a pharmacy technician on completion of the courses and cannot call myself a pre-registration trainee pharmacy technician whilst I study the course.

13. Employer Declaration (please tick one box only and sign below):

- I can confirm that the trainee will work under the supervision, direction or guidance of a pharmacist or pharmacy technician for a minimum of 14 hours per week for 2 years. During this time we will share information relating to the trainee's health, conduct or performance that is contrary to the Code of Conduct for pre-registration trainee pharmacy technicians.
